Corporate Governance

Message from Outside Director

Mr. Tsukamoto, Outside Director commented on Yaskawa’s management and corporate governance.

Continual Review of Corporate Governance System Based on the Expectations of Shareholders and Investors Is Needed

Outside Director, Audit and Supervisory Committee Member
Hideo Tsukamoto

Evaluation of management

I have the impression that under the leadership of President Ogasawara, the attitude of providing solutions for customers has been widespread in order to promote "i³-Mechatronics". We toured the European operations, including a robotics plant in Slovenia that began operations in FY2019. I feel the same way for the overseas subsidiaries. The future of the business environment remains uncertain, partly due to the impact of the new coronavirus infection, but I expect growth in order to achieve mid-term business plan "Challenge 25".

Future initiatives

In order to improve corporate value on a sustainable basis, management needs to have both "offensive" and "defensive" views. Although defensive measures tend to be regarded as cost centers, appropriate risk management under compliance management is a major premise for offensive management. From this perspective, I believe that there is a need to clarify and strengthen the authority and responsibility of the departments responsible for legal affairs in a broad sense, and to conduct management with due consideration to the allocation of sufficient and appropriate human resources.

Assessment of corporate governance

At the meetings of the Board of Directors and the Audit and Supervisory Committee, four outside directors are actively expressing their opinions based on their respective knowledge, which gives a sense of tension to management in a positive sense. On the other hand, the governance system needs to be constantly reviewed, taking into account the expectations of shareholders and investors. In particular, I believe that it is necessary to continue working to strengthen the core part of the supervision by the Board of Directors regarding appointment and compensation, as well as the governance system for Group companies, including overseas subsidiaries.

Activities in FY2019

[Maintain zero cartel and other serious violations of laws and regulations] In order to maintain no occurrence of serious violations of laws and regulations, including cartels, we conducted global educational activities on related laws and regulations as well as compliance in general, including at affiliated companies, by expanding the application of the “Guidelines for Preventing Cartels (Enacted on February 28, 2018)” within Yaskawa Group, strengthening education, and revising and publicizing the “Yaskawa Compliance Manual (First published in October 2017, Revised in October 2019)”.

[Awareness of the reporting system for violations of laws and regulations] Experts on business operations and applicable laws and regulations were assigned in the Compliance Promotion Department to strengthen reporting systems and raise awareness at each business operation. Awareness of the reporting system has also increased through the dissemination of the message from the president and the enhancement of public awareness through communications by Yaskawa Group’s “Compliance Promotion Leader”. We will continue to provide information on a regular basis to maintain and improve the recognition of our reporting system.

[Improvement of level evaluation scores for security measures] At Yaskawa, we are strengthening our management and security measures by introducing thin client computers. Specifically, we are continuously implementing measures to reduce security risks such as information leaks by managing and operating all important internal data in safe locations (In-house data centers and cloud environments with appropriate security measures). As part of our work style reforms, we have introduced a new cloud-based system for secure remote meetings and file sharing in order to accommodate a variety of work styles, and are also working to improve convenience. We will continue to conduct regular monitoring of changes in the environment and technological progress to maintain and improve security levels.

[Percentage of domestic offices that meet in-house standards in the checklists for measures against major earthquakes, heavy rains, and river flooding] Of the 9 regions in Japan, we took measures in 2 regions where targets were not achieved. As a result, all domestic offices met our standards in the major earthquake, heavy rain, and river flooding countermeasures checklist. In addition, we identified major risks in the areas of our major plants that could occur in the event of a major earthquake or river flooding, and worked to formulate a BCP.

[Continue implementation of Board of Directors’ evaluation] For details, see “Evaluation of the Board of Directors’ Effectiveness” on the following page.
Corporate Governance System

As a Business-to-Business manufacturing company, Yaskawa’s management requires in-depth knowledge of market characteristics and technological trends, it has selected a system with an Audit and Supervisory Committee as an institutional design for its organization on the assumption that the president has authority over management policies, nominations, and compensation.

At the same time, we have developed a governance system to enhance the effectiveness of the Board of Directors by actively incorporating external knowledge, and to strengthen both defensive and offensive governance, in order to continuously improve corporate value. Yaskawa will continue to pursue its best, enhance management transparency, and further enhance corporate governance.

Background of strengthening corporate governance system

|----------|--------|----------------|----------------|----------------|
| Reinforcement measures
| FY2012   | • Introduction of executive officer system  
|         | • Number of Directors was reduced to 12 from 20 | | |
| FY2014   | • Establishment of a voluntary Compensation Advisory Committee | | |
| Institution establishment
| Company with Board of Corporate Auditors | Company with Audit and Supervisory Committee |
| Composition of the Board of Directors
| Internal | 14 | 6 | 8* | 8* |
| Independent outside (Female) | 1 | 1 | 3* | 4* |
| Composition of Audit and Supervisory Committee
| Internal | 2 | 2 | 2 | 2 |
| Independent outside (Female) | 2 | 2 | 3 | 4 |
| Remuneration system
| FY2017   | • Introduction of performance-based stock compensation system for directors (excluding directors who are Audit and Supervisory Committee members) | | |
| Accounting standards
| Japanese GAAP (End of fiscal year: March 20) | | FY2017 | Fiscal year end from March 20 to the last day of February | FY2019 | Voluntary application of International Financial Reporting Standards (IFRS) |
| Aim and purpose
| Reduce the number of directors and improve the flexibility of the Board of Directors | | Enhance effectiveness by stimulating discussions on the decision-making process and contents of business execution (validity) | | Increase diversity (Gender and Age) |
| Accelerate business execution by introducing an executive officer system | | Enhancing "offensive" and "defensive" governance | | Achieved a balanced structure with six directors who are not Audit and Supervisory Committee members and six Directors who are Audit and Supervisory Committee members |

* Including directors who are Audit and Supervisory Committee members.

Composition of the Board of Directors

Yaskawa’s Board of Directors is made up of personnel with advanced knowledge and experience in each field of corporate management. In addition, areas of particular importance to corporate management are defined as “corporate management and management strategy” “corporate governance” “finance and accounting” “legal” “sales and marketing” “manufacturing, R & D and IT” and “global”. We expect each director to demonstrate his or her abilities to the fullest.

In May 2018, we increased the number of independent outside directors by 1 to one third of the Board of Directors. In addition, the number of directors is not unevenly distributed in important management areas where each director is expected to demonstrate his or her abilities.

Evaluation of the Board of Directors’ Effectiveness

Yaskawa has been evaluating the effectiveness of the Board of Directors every year since FY2016 to ensure a sustainable increase in corporate value through improved effectiveness. All directors, including Audit and Supervisory Committee members, understand the purpose of the evaluation, and answer the “Questionnaire on Board of Directors Evaluation” (anonymous). We examine and implement measures to address issues identified in the results with the aim of further improving effectiveness.

**PDCA cycle utilizing effectiveness evaluation**

- **First time implemented in July 2016**: 37%
- **2nd time implemented in September 2019**: 71%
- **3rd time implemented in August 2018**: 85%
- **4th time implemented in August 2019**: 89%

**Challenges**
- Provision of information necessary for deliberation in advance
- Executive training opportunities
- Sufficient understanding of the background by participants

**Initiatives**
- Enhanced predistribution of explanatory materials
- Start of pre-check of “contents” for explanatory documents by the secretariat
- Started post-approval tracking

**Achievements**
- Improvements were made on all items indicated as “immediate improvement required” in the 1st assessment.
- Immediate improvement required

**Challenges**
- Balanced operations by proposal
- Providing necessary information in the document (location of risks may not be clear)
- Progress reports and analysis of results of mid-term business plan, etc.

**Achievements**
- No extraction of “immediate improvement required.”

**Challenges**
- Easy-to-understand management, including explanations for difficult technical terms

**Initiatives**
- “Operational Rules the Board of Directors” were newly established to clarify points to consider when preparing explanatory materials.
- Preparing for the adoption of “Medium- and Long-Term Incentives System”

**Initiatives**
- Dissemination of “Operational Rules the Board of Directors” and points for preparation of materials to base in Japan and overseas
- The skills and abilities expected of directors are provided as a matrix
- Planning and executing training for outside directors

**Main measures against identified issues**

1. Provide in-depth information on important issues, such as the points and risks of each proposal, and conduct meetings in a balanced manner.
2. Promote active discussion by providing prior explanations of proposals to outside directors and by matching the level of understanding with internal directors.

In FY2018, we held individual hearings with a third-party organization and plan to hold such hearings once every three years. For other years, we will conduct a questionnaire in anonymous form.
Corporate Governance

Remuneration

Concept of remuneration
Yaskawa has designed its remuneration system for executives based on the following principles.

- Single-year remuneration
  The purpose is to raise awareness to work together to constantly improve profits by distributing profits generated in the fiscal year concerned.

- Medium- and long-term remuneration
  The purpose is to raise awareness of raising corporate value over the medium to long term and share profits with stakeholders.

Process for determining remuneration system
The Corporate Governance Enhancement Div. drafts plans for Yaskawa’s remuneration system, which is deliberated by the Remuneration Advisory Committee and the Audit and Supervisory Committee before being resolved by the Board of Directors.

Remuneration paid to directors (excluding Audit and Supervisory Committee members)

1. Basic compensation
   The maximum amount of basic remuneration for directors shall be a fixed limit of 430 million yen or less. As we assume responsibility for enhancing corporate value, we pay a certain amount according to the performance evaluation and position of each director.

2. Performance-linked remuneration
   Based on the concept of single-year remuneration described above, the limit on performance-linked remuneration shall be 1.0% or less of the consolidated profit for the fiscal year prior to the general meeting of shareholders appointed or reappointed, in order to clarify the linkage with consolidated performance. The amount of remuneration for each director is calculated by taking into account the relative performance from the standard deviation based on the operating profit, growth rates of operating profit, and ROA of other companies in the same industry.

3. Stock remuneration
   Based on the concept of mid- to long-term remuneration described above, the evaluation indices used as the calculation standards for stock remuneration in the mid-term business plan “Challenge 25” are as follows. Stock remuneration is calculated by multiplying the achievement factor, etc. according to the target value of each evaluation index.

Valuation indices and formulas for stock remuneration to directors (excluding Audit and Supervisory Committee members)

</tr>
</tbody>
</table>
(i) Base amount by position
Based on the scale and responsibility of the areas in which the Directors are responsible and their contribution to the Group’s management, the standard amount is determined according to their positions after deliberation by the Compensation Advisory Committee.

(ii) Cumulative operating profit target achievement
(Total operating income during the mid-term business plan)
Valuation is made based on the cumulative total of operating profit in the mid-term business plan “Challenge 25” period. Specifically, evaluation starts with a certain coefficient when results exceed the cumulative total of operating profit made in the previous mid-term business plan “Dash 25”. If the “Challenge 25” target is exceeded, the evaluation coefficient is set higher. By doing so, we aim to increase the motivation of directors to achieve their goals and to maintain their motivation to work actively even after achieving them.

Evaluation image of (ii)

(iii) Achievement in the final year
(Revenue and operating profit)
Evaluation will be conducted according to the degree of achievement of revenue and operating profit in the final year of “Challenge 25” for the purpose of ensuring target achievement in the final year.

(iv) Achievement of ROIC in the final year
To motivate directors to improve capital efficiency and profitability, evaluations are conducted according to the degree of ROIC achievement.

(v) Comparison with TOPIX in TSR
Evaluations are conducted according to the degree of achievement of TSR with the aim of motivating directors to increase corporate value from the shareholders’ point of view.

(vi) Achievement of CO₂ emissions reduction targets
through Yaskawa products
In order to realize sustainable corporate activities and respond to social issues, Yaskawa evaluates the achievement of CO₂ emission reduction targets through its products.

Results of composition of remuneration for directors (excluding Audit and Supervisory Committee members)

Remuneration for Audit and Supervisory Committee members
1. Basic remuneration
   The limit on the basic remuneration for Audit and Supervisory Committee members shall be a fixed amount not exceeding 150 million yen.
2. Stock remuneration
   In light of the fact that the Audit and Supervisory Committee members are in charge of monitoring the execution of management in order to ensure the achievement of mid-term business plan’s targets in addition to the function of supervising the execution of operations, remuneration will be paid when mid-term business plan’s targets are achieved. In order to share the value of such remuneration with shareholders, stock-based remuneration is used. The number of shares to be paid to Audit and Supervisory Committee members is not linked to performance, but is linked solely to the value of the stock price. This eliminates the impact of such remuneration on the supervisory functions of Audit and Supervisory Committee members with respect to the execution of their duties.

* Retirement benefits have been abolished.
Members of the Board of Directors
(As of June 4, 2020)

Junji Tsuda (March 15, 1951)
Representative Director, Chairman of the Board
Number of shares of the Company held: 590 hundred
