YASKAWA ELECTRIC CORPORATION
(TSE6506)

What is Yaskawa?

- **Turning motors for 100 years**
- **Helping to build systems supporting industries and societies**
- **Three globally competitive products;
Industrial robots/AC servo drives/AC drives**

**Industrial robots
MOTOMAN Series**

**AC servo drive
Σ-X Series**

**AC drives
New series**

- 1. Corporate Profile and Business Overview**
- 2. Long-term Business Plan “Vision 2035”,
Mid-term Business Plan “Dash 35”**
- 3. Sustainability**
- 4. Solution Concept “i³-Mechatronics”**

1 . Corporate Profile and Business Overview

Yaskawa Principles

Founding Spirit

Our Company was founded by Daigoro Yasukawa in 1915 with the aim of "setting up an industry to repay the debt of gratitude to the State", an aspiration held by his father Keiichiro Yasukawa.

Keiichiro Yasukawa

Daigoro Yasukawa

Our Purpose

Yaskawa's mission is to contribute broadly to social development and human welfare through the execution of our business. To achieve the mission, our group has set the following three objectives and work hard to achieve them.

Our Value

- 1. Quality** Always developing and improving world-class technologies with a focus on quality
- 2. Profit** Working to improve management efficiency and secure Profit necessary for the sustainable growth
- 3. Market** Serving the needs of our customers and pursuing customer satisfaction

Profile

(As of February 28, 2026)

*Consolidated fiscal year from March 1, 2025 to February 28, 2026

Corporate Name	YASKAWA Electric Corporation	Consolidated Revenue	542.1 billion yen (FY2025*)
Founded	July 16, 1915	Main Business	•Motion Control (AC servos, controllers and AC drives) •Robotics •System Engineering
Head Office Location	2-1 KurosakiShiroishi, Yahatanishi-ku, Kitakyushu Fukuoka JAPAN		
Capital	30.6 billion yen		
Number of Employees	Consolidated 12,483		

Business History

(As of May 27, 2026)

Founder
Daigoro
Yasukawa

Representative Director,
Chairman of the Board; President
Hiroshi Ogasawara

Founded

100 th anniversary

1915 1950 1980 1990 2000 2015

Electric motors
(for coal mining)

System Engineering

Electric systems
Steel, paper, film plants,
water supply plants and
sewage treatment plants

1917 -
Commercialized "three-
phase induction motor".

DC Servomotors

AC Drives

AC Servomotors

Industrial Robots

1958 - Invention of
"Minertia Motor"

1977 - Debut of
Japan's first full
electric industrial robot

Shifted the focus
on Mechatronics
field

Glass sheet
transfer robot

Semiconductor wafer
transfer robot

Environmental and
energy equipment

Medical and
welfare robots

Food and
agriculture

Launch of Solution Concept
i³-Mechatronics

VISION 2035

Core Areas

Automation area
centered on
i³-Mechatronics

Physical AI

Integrating AI into
products to
enable new areas of
automation

New Mechatronics
Applications

Expansion of
automation into
new fields based on
core technologies

*"Mechatronics" is a combining word with mechanism (mechanical engineering) and electronics (electronic engineering), and Yaskawa has registered the trademark in 1972.

Revenue Breakdown by Business Segment

System Engineering

Revenue **38.7** (B JPY)

Core products:

Electrical systems for steel plants
Port cranes
Electrical systems for water supply and sewage

Electrical systems for steel plants

Port cranes

Robotics

Revenue **247.0** (B JPY)

7-axis arc-welding robot
MOTOMAN-AR1440E

Collaborative robot
MOTOMAN-HC30PL

Core products:

- Industrial robots
 - Arc and spot-welding robots, painting robots
 - Handling robots
- AI robots, collaborative robots
- Semiconductor wafer transfer robots
- Biomedical robots

Other

Revenue **20.3** (B JPY)

Core products

Logistics, etc.

Motion Control

Revenue **236.1** (B JPY)

➤ **AC servo motors and controllers (51%)**

AC servo drives
Σ-X series

New machine controller
"MPX1310 series"

YRM Controller "YRM1030"

Target Markets:

Semiconductor and FPD manufacturing devices, chip mounters, machine tools, injection molding and metal forming machines, etc.

➤ **Drives (49%)**

Yaskawa AC drive
GA 700 series

PV inverter
Enewell-SOL P3H

Target Markets:

Elevators and escalators, HVAC, textile machines, port cranes, etc.

Revenue / Operating Profit (FY2016 – FY2026 Forecasts)

- Setting **operating profit** as the most important KGI
- Formulating mid-term business plan every three to four years

(Billions of yen)

Dash 25

Challenge 25 Plus

Realize 25

Dash 35

Mid-term business plans

Note1: Data up to FY2017 are based on Japanese GAAP.

Note2: The data for FY2017 are made on a reference basis. (March 21, 2017 – March 20, 2018)

Revenue by business segment and location (FY2016-FY2025)

- **Robotics** is expanding due to the trend of automation, labor-saving, and EVs.
- Overseas sales ratio is increasing by accurately capturing demand expansion in growth markets out of Japan

※The Company has adopted International Financial Reporting Standards (IFRS) since its Annual Securities Report submitted on May 28, 2020. The figures for the previous fiscal year are restated based on IFRS for comparative analysis.
 ※The Company changed its accounting period starting FY2017 from March 20 to the last day of February. As a transitional year for this change, FY2017 was from March 21, 2017 to February 28, 2018.
 ※The has changed the basis for calculating regional information from the destination (customer locations) to the location of each Yaskawa Group company since FY2022.

Shareholder Return (Dividends)

- The cash generated by business activities is effectively allocated in three directions:
(1) growth investments (2) shareholder returns (3) return to employees
- The policy of shareholder returns is based on a payout ratio of 30% + α.

Network in Japan

- **Head office (Robot Village) / Yaskawa Technology Center**
- **Yahata-nishi plant** (Robot Plant / Yaskawa Robot Center)
- **Yahata-higashi Plant**
- **Nakama plant** (Robot plant / System Plant)

- **Iruma plant**
(Yaskawa Solution Factory / Solution Center)

Kyushu office

- **Yukuhashi plant**
(Drive Center / System Engineering Center)

Kansai office

Chubu office / Chubu Robot Center

Tokyo branch

Hokuriku sales office

Sendai sales office

Tsukuba Research Laboratory

Kanto Robot Center

Hachioji sales office

Hamamatsu sales office

Chugoku sales office

- : Business office / Laboratory
- : Regional offices
- : sales offices

Global Network

Business locations: About 30 countries
Production sites: 13 countries, 25 sites

2. Long-term Business Plan “Vision 2035” (FY2026-FY2035)

Mid-term Business Plan “Dash 35” (FY2026-FY2029)

Yaskawa's Vision for 2035

Contribute to the sustainable development of society by expanding the field of Mechatronics based on technological innovation

~2025

2035 and beyond

Continuity

【Domains】 Electric motors and its applications

【Core Technologies】 Motion Control/Power Conversion/Robotics

Ecosystem

Core Areas

Automation area centered on
 i^3 -Mechatronics

Physical AI

Integrating AI into products to
enable new areas of automation

New Mechatronics Applications

Expansion of automation into new
fields based on core technologies

Financial Targets for FY 2035

**Achieve enhanced returns to stakeholders by
setting operating profit ratio as key KGI**

	FY2025 Results	FY2035 Targets
Financial Targets	Operating Profit Ratio 8.7%	20.0% or more
	Dividend Payout Ratio 50.0%	40.0% or more

Aim and Policies of “Dash 35”

Thoroughly Maximizing Profitability and Creating New Markets for Physical AI

Policy 1

Development of the Physical AI Market

Policy 2

Expansion of i^3 -Mechatronics Implementation

Policy 3

World-Leading New Product Development

Policy 4

Expansion of Business in New Mechatronics Applications

Policy 5

Evolution of YDX and i^3 -Singularity

i^3 -Mechatronics
 i^3 -Singularity

Revenue and Operating Profit Targets

Toward the realization of the Vision 2035, operating profit and ratio are positioned as the most important KGIs, with the aim of achieving operating profit of 100B Yen and an operating profit ratio of 15.4% in FY2029

Execute the financial capital strategy to enhance corporate value

		FY2025 Results	FY2026 Forecasts	FY2027 Targets	FY2029 Targets
Core Indicators	ROE※1	7.7%	9.6%	10.0%	12.0% or more
	ROIC※2	6.9%	8.5%	9.0%	11.0% or more
	Dividend payout ratio	50.0%	41.9%	40.0%	40.0% or more
FY2026-FY2029 Investment Plan		Cumulative investments : 250.0 (ratio to revenue 10%) - capital expenditures : 130.0 - strategic investments : 120.0			

※1 ROE = Profit attributable to owners of parent / Equity attributable to owners of parent (average of beginning and end of fiscal year)

※2 ROIC = Profit attributable to owners of parent / Invested capital

Policy 1. Development of the Physical AI Market

Develop the Physical AI market and expand the scope of automation

Adaptive Robotics

MOTOMAN NEXT
(Manufacturing
on-sites operations)

Food

Beverage

Agriculture

Medical

Logistics

Architecture

Semiconductor

Automobile

Oil&gas

Machine tools

Situation Assessment and Task Planning

Humanoid Robot
(non-manufacturing)

Flexible production

Offices

Office buildings

Hospitals

**Physical AI
Market**

Advanced Actuators

Expand Core Component Portfolio

※ Physical AI: Defined as the realization of use cases in areas where automation has traditionally been difficult, by integrating Yaskawa products with AI. To enable this, we define "AI robotics" as the integration of motion with AI-driven recognition and decision-making, which represents an expansion of the "integrated" domain of i³-Mechatronics. "MOTOMAN NEXT" is a product that embodies this concept of AI robotics.

Policy 2 . Expansion of i³-Mechatronics Implementation

Empowering customers to win through leveraging accumulated solutions and scale advantages

Solving Our Customers' Business Challenges

Improving service quality

- ✓ Customer-centric service delivery
- ✓ Thoroughly incorporate quality data into product development
- ✓ Strengthening the integration of sales and service

Accumulated solutions

- ✓ Digitizing "Customers' needs"
- ✓ Applications of case studies from in-house factory implementations

Differentiation of core products

- ✓ Making full use of the Technology Center
- ✓ Product strategies tailored to each region

Value added through strengthening the production infrastructure

- ✓ Production resilient to fluctuations in volume
- ✓ Significant reduction in procurement costs
- ✓ Streamlining indirect departments

Policy 3. World-Leading New Product Development

Creating world-class technology through the synergy of core technologies, on-site data, and utilization of AI

Policy 4. Expansion of Business in New Mechatronics Applications

Expanding the scope of automation through the application of mechatronics technologies and collaboration with partners

Automation in the agricultural field

Agriculture

Expanding the platform into the medical and pharmaceutical fields

Medical

Expanding the use of robots in the food field

Food

Use of
AI

**Advancing into new fields with
absolute “physical” applications**

Partner
collabo
rations

Policy 5. Evolution of YDX and i³-Singularity

Enhancing corporate value by being continuously trusted and chosen by stakeholders

Building a robust management foundation through the evolution of YDX

Achieving mid- to long-term management objectives based on the sustainability policy

Fostering a results-driven “One YASKAWA” corporate culture through deeper understanding of the Yaskawa Principles

3 . Sustainability

Promotion of Sustainability

Formulated the policy to strengthen initiatives to contribute to social sustainability

Sustainability Policy

We will strive to realize a sustainable society and increase corporate value through the implementation of the Yaskawa Group Principle of Management which is to leverage the pursuit of our business to contribute to the advancement of society and the well-being of humankind.

1. We will contribute to the value creation for customers and society through creating innovation by cutting-edge mechatronics technologies.
2. We will realize fair and transparent corporate management through communication and collaboration with stakeholders around the world.
3. We will work to resolve social issues globally with the aim of achieving SDGs as a universal goal.

Sustainability Promotion System

Yaskawa Group's Sustainability Challenges and Targets (Materiality)

Under newly formulated Sustainability Policy, identifying materiality and expanding initiatives to solve to the mid-term business plan.

Yaskawa Group's Materiality

Create Social Value and Solve Social Issues through Business Activities

Realize revolutionary industrial automation with our partners through "i³-Mechatronics"

Build clean social infrastructure and foundation for safe and comfortable living

Develop new technologies and business domains through open innovations

Strengthen Management Foundation that Contributes to Sustainable

Sustainable and productive manufacturing

Create a rewarding workplace and human resource development

Fair and transparent governance system

The Risks and Opportunities Identified in the TCFD Scenario Analysis

- The impact of climate change on business was examined.
- In terms of financial impact, **opportunities of revenue increase will be greater than risks of revenue decrease.**

Business impact on risk and opportunity factors

Risk/ Opportunity	Transition/ Physical	Factor	Impact	Evaluation*
Risk	Transition	Carbon price	• Increased fuel and material procurement costs due to the introduction of carbon taxes by national governments.	Serious
		Government policies on carbon emissions	• Increased costs (e.g., purchasing clean energy) that accompany the introduction of emissions trading and the strengthening of emissions regulations.	Moderate
		Transformation to energy savings and carbon reductions	• Production impacts due to price increases and procurement difficulties for reasons such as insufficient related materials from electrification and the transition to electric vehicles.	Serious
		Recycling regulations	• Increased costs from using substitute materials, etc., due to regulations such as those on plastics.	Minor
		Growth of low-carbon technologies	• Increased investment costs, such as R&D costs, due to increased competition in the energy saving performance of products against a background of increasing demands for energy savings.	Moderate
		Changing behavior of investors and customers	• Increased support costs due to investors and customers preferring companies that are more environmentally responsive. • Decreased company valuation and loss of business opportunities due to delayed responsiveness to environmental responsibility related to information disclosure and procurement.	Minor
	Physical	Increasing average temperatures	• Increased energy costs due to increased air conditioning energy in our factories. • Need to move production sites where the risk of flooding exceeds tolerances due to sea rise.	Moderate
		Intensification of unusual weather	• Operation stoppages, reductions in production, and additional investment to restore equipment from typhoons, tornadoes, and flooding.	Serious
Opportunity	Transition	Transformation to energy savings and carbon reductions	• Increased demands for factory automation devices and industrial AC drives due to increased energy saving needs. • Expanded business opportunities for solutions that increase the productivity and energy saving performance of factories and equipment. • Expanded demand for solar power generators and wind power/geothermal power/biomass power generation equipment due to feed-in tariff incentives and so on.	Extremely serious
		Changing behavior of investors and customers	• Increased investor valuation, increased ESG investment, and increased corporate value due to expansion of businesses that contribute to the environment.	Minor

*Definitions of "minor," "moderate," "serious," and "extremely serious" in valuation

Minor: less than ¥100 million; moderate: ¥100 million to ¥1 billion; serious: over ¥1 billion to ¥10 billion; extremely serious: over ¥10 billion

2050 CARBON NEUTRAL CHALLENGE*¹ and Prospects for Achievement

- We will achieve net zero CO₂*² emissions from global business activities (Scope 1 + Scope 2*³) in 2050, and reduce the same CO₂ emissions by 51% from 2018 levels by 2030.(Announced in March 2021, revised in May 2022)
- We will actively invest in the environment to achieve this goal.

*1 Yaskawa Group's goal of achieving net-zero CO₂ emissions from its global business activities by 2050.

*2 Including carbon dioxide and other greenhouse gases (CFCs, etc.)

*3 Scope 1 is mainly emissions associated with fuel use (direct emissions). Scope 2 refers to emissions associated with the use of purchased electricity and heat (indirect emissions by electric power companies, etc.).

"CCE100" a Unique Environmental Indicator

- Promoting CCE100*, a target to increase the amount of CO₂ reduction contributed by Yaskawa products to 100 times or more of Yaskawa Group's CO₂ emissions by 2025 and achieved this target two years ahead of schedule in FY2023
- Reducing the environmental impact of production activities (Green Processes) and contributing to reducing the environmental impact of customers around the world through Yaskawa products(Green Products)

* Abbreviation of Contribution to Cool Earth 100

CO₂ reduced through products
CO₂ emitted by the Group
≥100 : CCE100
Contributions of more than 100 times in 2025

(Thousand t-CO₂)

CCE 100 Progress and Targets

Example for Green Products

AC drive Matrix converter

Medium voltage AC drive PV inverter for solar power generation

PM motor Robot

Structures of the Board of Directors, the Audit and Supervisory Committee, and Advisory Committees

Yaskawa Electric has adopted a corporate structure with **an Audit and Supervisory Committee**

Composition of the Board of Directors and Board Skills Matrix

Name	Position	Gender	Attributes	Field of capability that Yaskawa expect each director to demonstrate/						
				Corporate management/ Business strategy	ESG/ Sustainability	Finance Accounting	Legal affairs	Sales Marketing	Manufacturing R&D/OX	Global
Hiroshi Ogasawara	Representative Director, Chairman of the Board	Male		○	○			○	○	○
Masahiro Ogawa	Representative Director, President	Male		○	○			○	○	○
Yasuhiko Morikawa	Director, Senior Executive Officer	Male		○	○	○	○			○
Hisanori Makaya	Outside Director	Male	Outside Independent	○	○			○	○	○
Takeshi Ikuyama	Director and Member of the Audit and Supervisory Committee	Male	Audit and Supervisory Committee Member	○	○					○
Kaori Matsuhashi	Outside Director, Member of the Audit and Supervisory Committee	Female	Audit and Supervisory Committee Member Outside Independent	○	○	○				○
Keiji Nishio	Outside Director, Member of the Audit and Supervisory Committee	Male	Audit and Supervisory Committee Member Outside Independent	○	○			○	○	○
Yaeko Hodaka	Outside Director, Member of the Audit and Supervisory Committee	Female	Audit and Supervisory Committee Member Outside Independent	○	○		○			○

: Male : Female
 : Chairperson : Member

Outside

Outside Director as provided in Article 2-15 of the Companies Act

Independent

Designated Independent Director as stipulated by the Tokyo Stock Exchange

i³-Mechatronics

Yaskawa has provided many solutions, such as automation with mechatronics technologies and products like AC servo drives, AC drives, and robots to meet our customer's demand for the higher productivity and higher quality on a daily basis.

We add digital data management to our automation solutions and contribute to solve business issues from the manufacturing field together with our customers by using *i³-Mechatronics*.

FA Solution

Motion&
Data

Data Solution

Factory where i³-Mechatronics is realized

*1: Edge is an information processing field for data analysis and feedback that require real-time performance at production sites or factories.

*2: Cockpit is a software that able to collect, store, and analyze real-time data on equipment and devices at production sites.

YASKAWA
